

Advanced course for leading management

Goal

Acquire knowledge and skills on leading employees and teams in the context of change management. Thus theoretical knowledge and practical implementation are combined and practiced in various exercises.

Principal training topics

- Leadership and self-understanding
- Difficult cases from practical leadership
- Introduction into situational leadership
- Introduction into the methodology of colleague consulting
- Successful team development
- Dealing with changes
- Feedback-„mail-basket“ and 4-eye Feedback

Methods

Participants alternate in taking over the role to lead small teams. For this evenings are an important part of the training. By combining the methods of knowledge transfer and experience exchange between managers of various companies as well as doing multiple out-door exercises participants gain a new way of thinking concerning “leadership”.

Target participants

Leading and future leading employees

Duration

4 days

Date

04.-07. Juni 2009
